Seniors and Senior Families- Help Us Pronounce Your Senior's Name at Graduation!

During graduation, your school counselor will call your senior's name as they cross the stage to receive their diploma. Though your student's counselor has been working with you all year (and in many cases multiple years), we still need help with making sure we can pronounce your senior's **full name correctly**—first, middle, and last name. Therefore we have created Flipgrid groups for your senior to record themselves pronouncing their full name. This will help your student's counselor as they practice saying your senior's name leading up to graduation.

Please ensure your senior completes the following instructions:

Clicks on the link next below to your counselor to take you to your counselor's specific Flipgrid page where you can submit a short recording of you saying your name. When you record, please say your **full name** a couple of times. And don't worry, you will still be able to correct us at graduation rehearsal if we still get it wrong!
